Commonwealth of Massachusetts.

OFFICE OF THE SECRETARY, BOSTON, Jan. 27, 1902.

To the Honorable Senate and the House of Representatives.

I have the honor to submit herewith, in compliance with section 265, chapter 11 of the Revised Laws, a report of the number of assessed polls, the number of registered male and female voters at the date of the last annual State election and city and town elections, and the total number of persons, both male and female, who voted at each such election in each city and town, and in every voting precinct of the several cities and towns, together with the number of votes received by each candidate for a State office at the last annual State election, arranged by cities, towns and districts.

In compliance with that portion of the law quoted above which refers to other matters relating to elections, and to suggestions thereon, I submit the following:—

During the past year the board of examiners of voting machines have examined a modified United States Standard Machine, which machine has been approved. The Bardwell Votometer was again used in the city of Northampton at the State election and also at the annual city election, with satisfactory results.

I renew my recommendation of last year, that the entire charge of voting machines and all voting and counting apparatus, including their examination, approval and regulation of their use, be placed in the hands of a board, to be appointed by the Governor. The Treasurer and Receiver General, the Auditor of Accounts and the Secretary of the Commonwealth, who constitute the present board, are so pressed by the regular duties of their respective offices that they cannot, without serious interference with those duties, devote the time and attention necessary to the intelligent and thorough examination of voting and counting apparatus. In the case of the Treasurer and the Auditor, it is obvious that such work is quite outside the line of their official duties, while in that of the Secretary of the Commonwealth it comes during the approach of an election, when he is burdened with the complicated, perplex-

ing and pressing duties of preparing the official ballot. I therefore urge upon the Legislature the establishment of a board similar to that which has existed several years in the State of New York, and appears to have given entire satisfaction. In this view the Treasurer and Receiver General and the Auditor of Accounts heartily concur, and both of those officers have made the same recommendation in their annual reports. Such a board would entail no expense upon the Commonwealth, their compensation being paid by the owners of the machines examined. This is required by the New York law, which also provides that the owners of machines shall file drawings and specifications, from which there shall be no departure, excepting upon re-examination and approval by the board.

By a resolve of 1901, the Secretary of the Commonwealth was authorized to dispose of the fifty McTammany voting machines purchased by the Commonwealth in 1896, used at the State election of that year in the city of Worcester and the town of Boxborough, and then discarded by those municipalities. Acting under this authority, I have sold all but one, receiving therefor the sum of \$221.86 net. The remaining machine I have retained in this office as a sample.

In my report to the Legislature of 1899 I commended to serious consideration the subject of nominating candidates by direct vote, as far as practicable, without the intermediate process of delegate conventions. In that report I said: "I am convinced that there is a strong sentiment in favor of bringing the nomination of candidates as close to the people as possible. I am satisfied, also, that the more carefully the matter is considered, the more clearly its desirability will appear. To what extent the principle of direct voting in nominations can be applied can be determined only by careful investigation and comparison of advantages and disadvantages. In my opinion, at least one step in this direction should be taken, — to wit, the nomination of candidates for the House of Representatives. In this case there is a special argument for a change, — that of uniformity, — inasmuch as the candidates in some districts are nominated by direct vote and in others by delegate conventions. Cognate to this subject I beg to suggest to the Legislature that, if conventions are to be continued as an essential part of our electoral system, they should be regulated by law, with the same care that is bestowed upon caucuses and elections; for one cannot fail to observe that, while our caucuses and elections are guarded by law at every conceivable point, there lies between the caucus and the election the

process of the convention, in which are peculiarly favorable opportunities for political trades and manipulation, and which are left almost wholly outside the pale of legislation." No action was taken upon this recommendation at that time, but, as is well known, the Legislature of 1901 provided for direct nomination of candidates for senator in the Suffolk senatorial districts. I now respectfully urge action in the line of the proposition of my report to the Legislature of 1899, — to wit, that all nominations of candidates for the House of Representatives shall be made by direct vote.

Respectfully submitted,

WM. M. OLIN,

Secretary.

Commonwealth of Massachusetts.

OFFICE OF THE SECRETARY, BOSTON, Jan. 23, 1903.

To the Honorable Senate and the House of Representatives.

I have the honor to submit herewith, in compliance with section 265, chapter 11 of the Revised Laws, a report of the number of assessed polls, the number of registered male and female voters at the date of the last annual State election and city and town elections, and the total number of persons, both male and female, who voted at each such election in each city and town, and in every voting precinct of the several cities and towns, together with the number of votes received by each candidate for a State office at the last annual State election, arranged by cities, towns and districts.

In compliance with that portion of the law quoted above which refers to other matters relating to elections, and to suggestions thereon, I submit the following:—

I renew again the recommendation that the entire charge of voting machines and all voting and counting apparatus, including their examination, approval and regulation of their use, be placed in the hands of a board, to be appointed by the Governor. The Treasurer and Receiver General, the Auditor of Accounts and the Secretary of the Commonwealth, who constitute the present board, are so pressed by the regular duties of their respective offices that they cannot, without serious interference with those duties, devote the time and attention necessary to the intelligent and thorough examination of voting and counting apparatus. In the case of the Treasurer and the Auditor, it is obvious that such work is quite outside the line of their official duties, while in that of the Secretary of the Commonwealth it comes during the approach of an election, when he is burdened with the complicated, perplexing and pressing duties of preparing the official ballot. I therefore urge upon the Legislature the establishment of a board similar to that which has existed several years in the State of New York, and appears to have given entire

satisfaction. In this view the Treasurer and Receiver General and the Auditor of Accounts heartily concur, and both of those officers have made the same recommendation in their annual reports. Such a board would entail no expense upon the Commonwealth, their compensation being paid by the owners of the machines examined. This is required by the New York law, which also provides that the owners of machines shall file drawings and specifications, from which there shall be no departure, excepting upon re-examination and approval by the board.

During the year the Columbia Voting Machine has been examined and approved by the board of examiners, and the usual circular announcing such approval has recently been sent to the clerks of the several cities and towns.

The use of the Bardwell Votometer in the city of Northampton has been continued, and the results are reported to be still favorable.

The operation of the act of 1902, providing for the nomination of candidates in certain cases by direct vote, though embarrassed by the failure to provide for certain matters of detail, was, in the main, favorable. In my judgment this legislation should be continued and extended, for reasons which were fully set forth in my report to the Legislature of 1899, when action thereon was first proposed.

I commend to the consideration of the General Court the question of prohibiting the use of the name of a political party in the political designation of a candidate nominated by nomination papers. The law now allows any person to use the term Republican, Democratic or Socialist, on nomination papers, even though he has never been affiliated with any of those parties; and it is a notorious fact that candidates are nominated under the political designation of Republican or Democratic whose papers are signed almost exclusively by members of opposing parties. In short, the intent of the law has been perverted by practices which are misleading and unfair, and which should therefore be stopped.

In section 239 of the Election Act it is provided that the presiding officer at the polls shall cause "all ballots not cast" to be enclosed in an envelope, etc. In section 241 it is provided that "cancelled ballots" shall be destroyed after a certain time. "Ballots not cast" include two classes of ballots: first, those undistributed, and second, those which have been spoiled by voters,

returned to the election officers and cancelled. The latter class are those referred to as “cancelled;” but as some confusion has resulted from the change in the terms originally used, and more is likely to arise in the future, I recommend that the former phraseology be restored, so that the different classes of ballots may be clearly distinguished.

Respectfully submitted,

WM. M. OLIN,

Secretary.

BOSTON :
WRIGHT & POTTER PRINTING CO., STATE PRINTERS,

1904.

Commonwealth of Massachusetts.

OFFICE OF THE SECRETARY, BOSTON, Jan. 21, 1904.

To the Honorable Senate

and the House of Representatives.

I have the honor to submit herewith, in compliance with section 265, chapter 11 of the Revised Laws, a report of the number of assessed polls, the number of registered male and female voters at the date of the last annual State election and city and town elections, and the total number of persons, both male and female, who voted at each such election in each city and town, and in every voting precinct of the several cities and towns, together with the number of votes received by each candidate for a State office at the last annual State election, arranged by cities, towns and districts.

In compliance with that portion of the law quoted above which refers to other matters relating to elections, and to suggestions thereon, I commend again to the consideration of the General Court the question of prohibiting the use of the name of a political party in the political designation of a candidate nominated by nomination papers. The law now allows any person to use the term Republican, Democratic or Socialist, on nomination papers, even though he has never been affiliated with any of those parties; and it is a notorious fact that candidates are nominated under the political designation of Republican or Democratic whose papers are signed almost exclusively by members of opposing parties. In short, the intent of the law has been perverted by practices which are misleading and unfair, and which should therefore be stopped.

The operation of the Luce act, so called, (chapter 454 of the Acts of 1903), has given rise to several questions concerning its administration and effect; but, inasmuch as these questions are now before the Legislature, in a variety of bills, it seems unnecessary to refer further to the subject here.

Respectfully submitted,

WM. M. OLIN,

Secretary.

NUMBER OF ASSESSED POLLS, REGISTERED VOTERS AND PERSONS WHO VOTED AT ELECTIONS.

Apparent inconsistencies in the report may be accounted for, in part, as follows : —

First. The number of assessed male polls includes aliens and other persons who are not qualified to become registered voters.

Second. The number of registered male voters includes persons who are exempt from taxation and therefore are not included in the number of assessed male polls.

Third. Many names of voters on the list at the State election are, by reason of change of residence, erased from the list of voters at municipal elections.
